

Daniela is forward thinking, pragmatic and innovative global HR leader in Research & Development of AstraZeneca. She has worked at all functional areas within pharmaceutical business: in Abbott she worked as global HR Director for Manufacturing, Supply Chain, R&D and global support functions such as Marketing, Finance, Public Affairs, IT, Legal services; and in Solvay Pharmaceuticals she worked as HR Director for Commercial emerging markets (Asia-Pacific, Middle East, Eastern Europe and Latin America). Before joining the pharmaceutical industry, Daniela worked in business consulting with PricewaterhouseCoopers, where she worked on various client assignments in the field of Mergers & Acquisitions, reward strategy, HR benchmarking, restructuring and many other organization design and change projects. Throughout her career she developed deep understanding of pharmaceutical business and diverse markets needs, having ability to anticipate future trends and rapidly execute strategies that maximize the value of people. Daniela has masters degree in philology, bachelors degree in law and postgraduate diploma in Human Resource Management with CIPD.
