

**Dr. Martina Muttke, Head of International Medical Affairs
Shire International GmbH**

Martina Muttke leads the International Medical Affairs function as a Group Vice President at Shire International GmbH, a global Biopharmaceutical company focused on Rare Diseases.

Martina is a physician by training and has more than 20 years of pharmaceutical leadership experience. In addition to her medical background, Martina received a business education at Harvard University (AMP program), and is a certified coach.

After her medical studies at the University of Cologne, Germany, and her Doctorate in medicine, Martina initiated her pharmaceutical career with GSK Germany in Medical Affairs. She afterwards joined the online media world, leading the creation of scientific internet portals at Bertelsmann Springer. In the 15 years after that, Martina held various positions at Schering and Bayer Pharma AG, working as a senior leader mainly for Emerging Markets. She spent some years as VP Medical Affairs for Latin America in Mexico City.

In her last position in Bayer, Martina was accountable for Medical Affairs in both Latin America and the EMEA region, where she initiated and guided the development of an Emerging Markets culture and corresponding medical strategy.

Besides, Martina is engaged as an Angel Investor in discovering Healthcare Startups, and a Mentor for the Harvard Business school Healthcare program.
