

Hannah Celino is a seasoned technology and business professional with more than 20 years of experience in leadership, team development, stakeholder partnership, strategy development and execution. Her notable career accomplishments include successful enterprise wide program implementation, mergers and acquisitions and strategy deployment. She has a flair for turning around team performance and aligning employees behind compelling business goals. Her tireless enthusiasm and passion for creating business value led her to various roles of increasing responsibility. She values collaboration and inclusion which helped her form strong, professional partnerships globally.

Hannah joined Shire, the leading global biotechnology company focused in rare diseases, in June 2015. She is currently the Head of Business Excellence for the Los Angeles manufacturing site. In this position, she leads the team responsible for project and program implementation, GMP training, continuous improvement and strategy deployment. She also serves as a member of the Los Angeles Strategic Leadership team.

Prior to joining Shire, she started her career at Baxter in 1994 as an IT programmer in a Development Rotation Program. From 1994 to 2007, Ms. Celino worked at the corporate headquarters and held various IT roles including responsibilities for IT infrastructure operations in the Latin America Region. In 2009, she moved to California to lead IT operations in one of Baxter's divisions and manufacturing plant.

Hannah emigrated from the Philippines with her family at age 18. She worked her way through college and earned her Bachelor of Science degree in Computer Science from the University of Wisconsin in Madison and attended Northwestern's Masters Communication System program. She lives in Santa Monica, CA and spends her spare time training her pit bull terrier mix rescue dog. She travels back to the Philippines once a year, where she is currently working with her dad on building a community center.
