

GWYNEDD WARREN VP AND HEAD OF LEGAL & INTELLECTUAL PROPERTY

Gwyn leads our legal and intellectual property activities for Galvani Bioelectronics. Since joining GSK in 2006, Gwyn has had an increasingly globally diverse role - providing intellectual property counsel in developing patent portfolios across therapeutic areas, and providing legal and transactional counsel. She advised the business in a complex and rapidly developing environment of collaborative R&D, conducted in public-private partnerships, with non-profit and supranational funding. Gwyn also provided IP counsel for Vaccines transactions, and has supported several patent litigations relating to vaccine products. Gwyn previously worked in private legal practice, developing and executing patent strategies in diverse technology areas for start-up companies in the biotechnology space - and for academic and government institutions. Gwyn earned a PhD in Genetics from Yale University and performed postdoctoral research in immunology before transitioning into law. She has a JD degree from University of California, Berkeley (Boalt Hall) and is a member of the US Patent Bar.
