

Rasa Bertuzis, MPH, MT(ASCP)SI, CCRA is currently a Director in Clinical Operations for Roche Molecular Solutions. She has over 14 years of experience as a health care professional in University Medical Centers in the area of Laboratory Medicine/Clinical Immunology and 25 years in Clinical Research/Trials.

Rasa graduated from the University of Illinois Medical Center with a Bachelor of Science in Medical Technology and a Master of Public Health from the University of Illinois School of Public Health. She began her career as a medical technologist in the clinical Microbiology laboratory of the Westside Veterans Administration Medical Center. After a year, she changed positions to assist in establishing and conducting an advanced diagnostic Immunology laboratory, eventually becoming the Lead Technologist. It was during this time that she completed her graduate degree, achieved her Specialist in Immunology certification (ASCP) and held a faculty appointment as a Clinical Instructor in the Department of Medical Laboratory Sciences at the University of Illinois Medical Center. After 8 years with the Veterans Administration, she accepted the position as Laboratory Supervisor in Clinical Immunology at Rush Presbyterian St. Luke's Medical Center in Chicago and a faculty position in the Department of Medical Technology at Rush University. Six years later, Rasa started her career in Industry. She began as a clinical research associate with Abbott Laboratories, conducting and monitoring clinical studies in the US, Europe and Southeast Asia. Over the years, she went on to become a clinical project manager. Rasa joined Roche Molecular Systems in 2011 as a Director of Clinical Operations. She currently supports clinical trials in the areas of Microbiology, Point of Care and Sequencing for the Oncology disease area.
