

Fiona Susie, Senior Program Manager, Product Stewardship (RoHS, Conflict Minerals, WEEE)

As BD's Senior Program Manager in Product Stewardship for RoHS, conflict minerals, and WEEE, Fiona Susie uses her talent of getting things done within an international environment to oversee regulatory initiatives that impact BD's ability to sell in global markets. Fiona and her team in an overseas service center ensure that BD can sell electrical products in the US and the EU by maintaining compliance in an efficient and cost-effective manner. Fiona comes from a procurement background with 8 years of experience in the medical device industry and 6 years in consumer goods with Honda. Fiona has a Bachelor of Arts in Economics and German from Tulane University and a Master of Business Administration from East Carolina University.
