

Jeanne Zucker, Vice President Client Development, athenahealth – Watertown, MA

Jeanne serves as VP Client Development within the Enterprise Division at athenahealth, a leading provider of cloud-based services for electronic health record (EHR), practice management, and care coordination for physician practices, health systems, retail clinics and urgent care centers.

Prior to athena, Jeanne held the position of SVP, Client Relations for InfoMedics, Inc., a health care services organization focused on patient feedback and marketing support programs for the pharmaceutical industry. Before moving into the pharmaceutical industry, Jeanne was with Private Healthcare Systems, Inc. within the managed care industry. She started her career at the Health Data Institute as a Senior Analyst.

Jeanne is an active member of the Healthcare Businesswomen's Association (HBA) and has held numerous roles at the chapter and corporate board level, serving as President of the Association in 2014 and is now Chair Emeritus.

Jeanne holds an undergraduate degree in Psychobiology and Neurobiology from Wellesley College.
