Technology is impacting healthcare in surprising new ways. This evening’s panel will provide insight on how these new technologies such as Google Glass, Wearable Technology, Telemedicine and Gamification will impact healthcare now and in the future, as well as, some of the strategic technology initiatives for providers.

**Our prestigious panelists include:**

**Christy L Kindler RN, BSN, MBA, CHCIO**  
Regional Chief Information Officer, West Florida Region

Christy Kindler is the Regional CIO for the Florida Hospital West Region of Adventist Health System. Facilities include Florida Hospital Tampa, Florida Hospital Carrollwood, Florida Hospital North Pinellas, Florida Hospital at Connerton, Long Term Acute Care, Florida Hospital Wesley Chapel, Florida Hospital Zephyrhills, and Florida Hospital Heartland Medical Center (three facilities in the Sebring area). She is a recognized technology executive known for successfully leading organizations on their “digital” journey. She offers a unique blend of technological perceptive and clinical acumen. She spent many years as a critical care and ER nurse and brought that love of technology to the IT realm. She has over 20 years of experience in the healthcare industry.

**Lisa Rodriguez, M.D.,**  
Vice Chief of Staff of Pediatrics, Tampa General Hospital

Currently Dr. Rodriguez serves as Vice Chief of Staff of Pediatrics at Tampa General Hospital and as the Medical Director of the Children’s Medical Center at Tampa General Hospital. Dr Rodriguez has served as USF faculty since 1999 in the Department of Pediatrics. Her experience as a clinical professor of pediatrics has allowed her follow both her passions of medicine and teaching. In early 2013, Dr Rodriguez conceptualized a serious game as a tool to safely and effectively supplement the educational experience of her medical students and residents. Working closely with USF’s Connect personal and entrepreneur Ms Susanne K Gill, Smart Reflection emerged to fulfill this vision.

**Mallesh Murugesan**  
Founder and CEO of Abeyon

Mallesh has a clear and precise understanding of what user experience means. His company develops innovative solutions for the challenges that healthcare faces today. A national thought leader in mobility, telemedicine and health IT, Mallesh actively participates in health information dialogue through various sources like twitter, CIO panels and other groups. He also serves as a board member in the mHIMSS Advisory council. Mallesh holds a Masters in Information Systems and an MBA from University of Maryland, Robert H Smith School of Business. He was recently nominated for Technology Entrepreneur of the year award by Miami Chamber of Commerce. You can follow him on twitter #malleshm

**Susanne Gills**  
CEO, Smart Reflection

Susanne’s background includes a variety of experience including accounting, business analysis, process re-engineering, and software implementation. In 1997 Susanne formed PeopleSolutions, a software consulting firm specializing in PeopleSoft implementations and support which later sold to Oxford Solutions, a large consulting firm. In 2000, Susanne and her husband founded HR-ease, an online enrollment system for Healthcare and employee benefits management. For more than ten years, Susanne nurtured the company and emerged a leader in the benefits enrollment industry, eventually selling in 2011. Since the sale, Susanne has maintained a consulting role within the new organization, rebranded as EB-Gateway, and began a new role as CEO of Smart Reflection.

**Tracy Ingram**  
President, Intention Technology

Tracy Ingram CEO of Intention Technology has over 10 years experience in Bioinformatics and has imported technology from all over the world, specializing in data acquisition and pattern recognition from micro-data. As former Director of Research for a military contractor he has worked on developing adaptive technologies using sensor technologies. A TEDx speaker and co-founder of Health-camp Florida an organization focused on identifying breakthrough medical technologies.

**Bruce Burke**  
Chief Marketing Officer, MIZE, Inc.

Bruce Burke is the organizer of the upcoming Social Mobile Engagement Conference and Code Challenge and the Chief Marketing Officer at m-ize. Bruce was recently recognized as being one of the Top Twenty social media influencers in the world related to mobile commerce, mobile payments, mobile banking and mobile money in a report issued by OboPay, a division of Nokia. Mr. Burke is also an accomplished writer and has been published in print and online publications such as Vending Times, Transaction World, Paybefore, The Prepaid Press, and Mobile Payments Today. Bruce is fascinated by technology and innovation, and was selected as one of the first 10,000 Google Glass Explorers from more than 250,000 entries.
